

SECRET

IAS STAFF MEETING

21 June 1974

25X1D

25X1A 1. [] reported on the Executive Council meetings of 18 and 21 June 1974:

25X1A a. [] has been appointed as the Director of OPR.

b. Mr. Colby spoke on 17 June to all of OCI.

c. Mr. Proctor accompanied the DCI to a Senate Appropriations Subcommittee meeting. Proctor suggests that future briefings deal with their subject matter simply. Briefers should be fast on their feet and able to recover quickly from diversionary questions.

d. Mr. Walsh commented on a recent MAGID meeting in which problems of communication within the Directorate were discussed. Some representatives remarked that DDI Notices and Vacancy Notices frequently did not filter down to the troops. These notices are available to IAS personnel on bulletin boards or within the Administrative Staff.

e. The DCI has made the decision to go forward to USIB on declassification of the knowledge of satellite imagery. It is now classified SECRET.

f. Proctor reported that the Director attended the National Security Council meetings with the President yesterday.

g. The DDO put on a briefing for the State Department concerning orientation for State people who would be going overseas and come in contact with CIA employees. The Director wants to give a similar briefing to the economic community.

h. Regarding honor and merit awards, Proctor pointed out that only one officer under GS-18 had received a DIM during the last 19 years. He feels that they should come up with more honor and merit awards for people under GS-18. Awards of this type should be looked into for clericals. OSI's may be given along with honor and merit awards.

SECRET

SECRET

i. There will be no Executive Council Meeting on Tuesday, as the DDI and the ADDI will be away.

j. OBGI put out Guide to Moscow for the President's trip. Copies are being sent to the State Department for dissemination.

25X1A

k. [] is preparing city profiles on cities President Nixon will be visiting.

25X1A

l. [] noted publication of the final volume in the NIS Program.

25X1

m. Mr. Lehman discussed a new Watch Committee proposal which will abolish the National Indications Center and replace it with a CIA staff that would prepare a daily report. The purpose is to make the indications and warning responsibility useful []

2. The Syrian-Israeli disengagement paper has gone forward to Dr. Kissinger for approval.

25X1

5. Herbert Jenne has been selected to head the Human Resources Committee.

25X1A

6. It has been proposed to stop reconnaissance overflights of Cuba and depend upon satellite coverage to meet USIB requirements. Mr. [] stated that if something did come up causing the satellite to be ineffective, the planes would be on standby to meet the requirements.

25X1

7. [] commented on the following:

a. Due to no more trash service in the Xerox Room (the receptacles have been removed), everyone will be responsible for taking his own trash back to his area for disposal.

b. Use two-sided copy feature on Xerox as often as possible due to high cost of paper and shortage of paper.

25X1

c. [] is the weekend duty officer.
